

TEST BUDDY™ APP

Introducing Test Buddy™ App for Pet Parents!

Test Buddy™ App was designed with powerful tools to help pet parents feel confident about their pet's health. It allows pet parents to sync glucose results from the Test Buddy™ meter memory to certain mobile devices, and share their pet's results with their veterinarian. They have access to multiple reports, charts and graphs for easy tracking and monitoring to help them manage their pet's diabetes.

Download the Test Buddy™ App for FREE!

The Test Buddy™ APP is available on both Android and iOS operating systems.

Visit www.healthy-tracks.com/test-buddy-app for compatible devices and pairing instructions.

Sync glucose results from Test Buddy™ meter memory via Bluetooth to certain mobile devices

Track their pet's blood glucose data to get valuable insights

Link their pet's daily activity with their results by adding event tags

Use easy-to-read charts, graphs and customizable notes

Share their pet's blood glucose results via PDF through email with veterinarian, friends and family.

Test Buddy™ App is not for diagnostic use.

Cancel Target Range Done

Hunter

	Hypo	Lower Target	Upper Target
74	77	122	
73	76	121	
72	75	120	
	72	119	
		118	
		117	

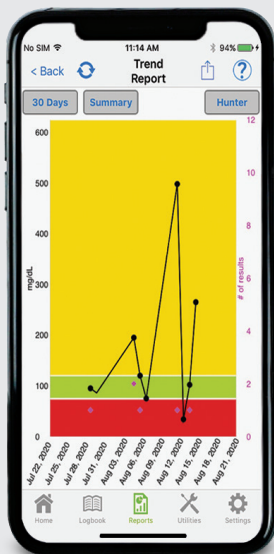

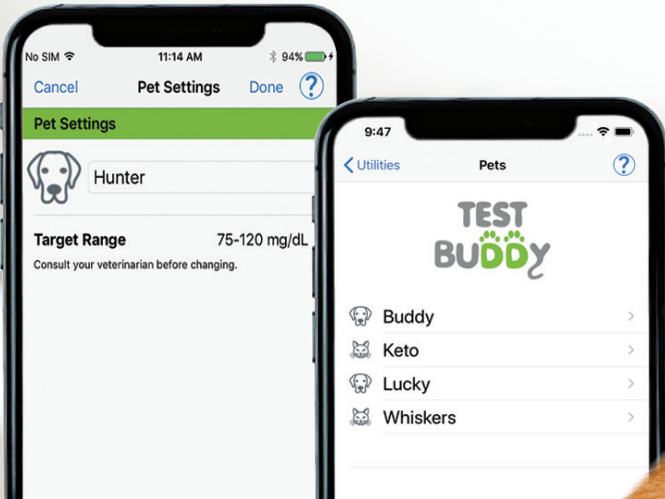

mg/dL

Color Coded

Each blood glucose result is color coded to indicate if their pet is within acceptable range.

Use for Multiple Dogs or Cats

Reports

Multiple reports provide easy to read insights to the information they need, when they need it.

iPhone screens shown as examples; Android screens may look slightly different.
